PROFESSIONAL SUMMARY

Flutter Developer with 1.5+ years of experience building and shipping cross-platform mobile applications used by real customers on the Google Play Store and Apple App Store. Skilled in Flutter, Dart, Firebase, offline-first architecture, and scalable state management (GetX, Provider, BLoC, MVVM). Founder of CoreNova Tech, where I independently designed, built, and published a marketplace application end to end. Experienced across healthcare, enterprise field operations, and ed-tech domains, with a strong focus on clean architecture, performance, and user-centered design.

WORK EXPERIENCE

Flutter Developer — Partical 14 Infotech

14 Nov 2025 – May 2026

Uttar Pradesh, India

- Developed and shipped production Flutter features used by live users on iOS and Android.
- Collaborated with design and product teams in Agile sprints, translating wireframes into pixel-perfect interfaces.
- Built reusable API service layers and integrated third-party SDKs, reducing development time across multiple features.
- Led code reviews and promoted clean architecture practices across the team.
- Identified and resolved performance issues, improving app startup time and crash stability.

Flutter Developer — Anjita IT Solutions

Nov 2024 – Sep 2025

Mumbai, India

- Delivered cross-platform Flutter applications published on both the Google Play Store and Apple App Store.
- Implemented state management using GetX and Provider, improving app scalability and code maintainability.
- Integrated Firebase Authentication, Firestore, and Push Notifications for secure, real-time user experiences.
- Worked closely with UI/UX designers to build responsive, high-fidelity interface components.
- Debugged and resolved production issues across iOS and Android platforms.
- Incorporated user feedback into iterative development cycles, improving retention metrics.

KEY PROJECTS

Writemate — Founder & Solo Developer, CoreNova Tech — Google Play Store

A location-based marketplace connecting students with skilled writers for assignments, essays, projects, and creative writing needs. Designed and developed end-to-end as a solo developer, including UI/UX design and Firebase backend. Features include geo-location-based writer discovery, profile browsing with writing samples, and direct call/chat communication, with a focus on data security and accessibility.

Technologies: Flutter, Dart, Firebase, Geo-Location, Real-time Database

Jai Respi App — Anjita IT Solutions — Google Play Store & App Store

An enterprise field reporting platform enabling real-time activity tracking for registered field operatives. Implemented an offline-first architecture allowing report capture without internet connectivity, with automatic background synchronization on reconnection, ensuring complete data integrity. Standardized reporting templates across distributed field teams, improving operational accuracy and transparency.

Technologies: Flutter, Dart, Offline-First Architecture, Firebase Sync, REST API, GetX

HUMRAHI — Health Companion App — Anjita IT Solutions — Google Play Store & App Store

A multilingual healthcare management platform for patients managing diabetes, cardiac conditions, and cholesterol, featuring real-time health trackers for BMI, blood sugar, steps, and cholesterol. Integrated Health Connect, Apple Health,

and Fitbit APIs into a unified step-counter, and implemented health data visualizations using `fl_chart`. Localized into 11 Indian languages with a custom-built multilingual search engine, improving accessibility for regional-language speakers across India.

Technologies: Flutter, Dart, fl_chart, Health Connect, Apple Health, Fitbit API, Localization (11 languages)

Zovo — Quiz & Trivia — Founder & Solo Developer, CoreNova Tech — Google Play Store

A gamified quiz and trivia app covering categories like Sports, Music, Geography, and Technology. Designed and developed a reward-based engagement system featuring a coin economy, daily spin bonuses, level progression from Beginner to Expert, and an email-based reward redemption flow with live status tracking. Holds a 5.0★ rating on the Google Play Store.

Technologies: Flutter, Dart, Firebase, Reward Systems, Real-time Progress Tracking

TECHNICAL SKILLS

- Languages & Frameworks: Flutter, Dart
- Backend & Cloud: Firebase (Auth, Firestore, Push Notifications, Realtime Database)
- State Management & Architecture: GetX, Provider, BLoC, MVVM, Clean Architecture, Repository Pattern, Offline-First Architecture
- Data Storage: SQLite, Hive
- APIs & Integration: REST API Integration, Health Connect, Apple Health, Fitbit API, Payment Gateway Integration (Razorpay, Cashfree, Stripe)
- Tools: Android Studio, VS Code, Xcode, Figma, Postman, Firebase Console, Git & GitHub
- Practices & Methodology: Agile/Scrum, Code Reviews, Performance Optimization & Debugging, Cross-Platform Development (iOS & Android)
- Collaboration: UI/UX Handoff with Designers, Cross-functional Product Collaboration

ACHIEVEMENTS

- Published multiple production Flutter applications on the Google Play Store and Apple App Store.
- Founder of CoreNova Tech — independently designed, built, and published a marketplace application end to end.

EDUCATION

Bachelor of Science in Information Technology — Expected 2027

Viva College of Arts, Commerce and Science, Virar, Maharashtra — 2nd Year

LANGUAGES

English (Professional), Hindi (Native), Marathi (Native)
